↑ Equity

# Capacity [1] National Health Reporting

	EUR B+C
NCD mortality	100%
NCD morbidity	100%
NCD risk factors	68%

**Capacity to Disaggregate: Medium to Low**

# Capacity [2]

## Behavioural Risk factors

	EUR B+C
Tobacco	88%
Alcohol	76%
Diet	76%
Physical inactivity	76%

# Capacity [3]

## Biological Risk factors

	EUR B+C
Overweight & obesity	76%
Blood pressure	84%
Blood glucose	68%
Blood lipids	44%

# For discussion

- ✓ Participation
  - ✓ How can CIS countries maximize their participation in the global consultation process?
- ✓ Capacity
  - ✓ How can we build the NCD surveillance capacity of CIS countries?

# **Mental Health Consultation: Global and Regional Action Plans Oslo, Norway, 3-5 September 2012**

Organization**

REGIONAL OFFICE FOR **Europe**

**HIGH LEVEL MEETING WITH SELECTED MEMBER STATES**

Malta, 8-9 September 2012

# Global Mental Health Action Plan

Resolution WHA 65.4 in May 2012: global burden of mental disorders and the need for a comprehensive, coordinated response from health and social sectors at the country level.

## Challenges:

- 13% of global burden of disease.
- 40-60% higher risk of premature death.
- Estimated lost economic output next 20 years: \$16trillion (World Economic Forum).

# Objectives Global Mental Health Action Plan

1. Effective leadership and governance.
2. Mental health and social care services in community based settings.
3. Mental health promotion and protection that span the life course.
4. Strengthen information systems, evidence and research.

Each with global targets.

# European Mental health Action Plan

Requested by Member States, builds on and customises the Global Action Plan, addressing European needs and priorities:

1. Optimize wellbeing at times of economic distress, particularly those most at risk.
2. Focus on empowerment and social inclusion.
3. Provide accessible and affordable services.
4. Guarantee respectful and effective treatments.

Targets being developed.
