

The accelerated roadmap to enhance evidence-informed policy-making (EIP) in the WHO European Region

Strategic objectives and concrete actions to strengthen EIP in support of the Health 2020 policy framework

Strategic objectives

Develop awareness and create commitment to improve EIP culture and practice

Build national EIP capacities for implementing Health 2020 and related health agendas

Convene communities of practice, share good EIP practices

Develop, use and evaluate EIP tools and mechanisms

Actions

- conduct stakeholder mapping and analysis
- develop communication, outreach and engagement strategies
- provide EIP incentives, establish high-level commitment
- institutionalize national level teams and mechanisms
- provide locally adapted workshops
- assess country situation and progress
- build networks
- learn from country experience
- create an inventory of networks and subject matter experts
- map and adapt new and existing tools
- develop, pilot and use new and existing tools
- monitor and evaluate existing and new tools to assess impact

...Towards an action plan to strengthen EIP in the Region
