# AFEW International

## General information

Official name:	AFEW International
Short self-description/Aims /Objectives	<p>AFEW's vision: <b>All people in Eastern Europe and Central Asia participate fully and confidently concerning their health and rights, in an inclusive and just society.</b></p> <p>AFEW is there for <i>all people in EECA that face barriers regarding access to health, justice and/or voice and prioritizing those who are more at risk, more stigmatized, and are facing more severe barriers.</i></p> <p>AFEW works in the 4 dimensions:</p> <ul style="list-style-type: none"><li>- <b>access to good quality health services:</b> Good quality health services need to include prevention, medical treatment, (consultations /social) care and support, early detection, rehabilitation and psychological support. Access implies not only that it is available within suitable parameters, but also that it is experienced as being accessible - inclusive and non-judgemental, and affordable. Good quality health services need to be responsive to the needs of specific communities, including needs related to SRHR, and within a context of high levels of HIV, TB and viral Hepatitis.</li><li>- <b>legal and social justice:</b> Legal and social justice includes equality before the law, and protections against human rights violations, for all. Social justice also includes access to a certain range of services that help people to maintain at least a minimum standard of living, for example welfare services, shelter, and education.</li><li>- <b>power to voice, participate and decide:</b> To ensure full participation in society, people need information, skills, and the ability to organize themselves autonomously.<sup>[1]</sup> People need platforms where they can voice their experience and their needs and experience dialogue, including (but not restricted to) in political spaces. Their power in the dialogue needs to be recognized and actively sought in decision-making processes.</li><li>- <b>appreciation of diversity:</b> Appreciation of difference is a global challenge; people tend to be comfortable with what looks and feels familiar and suspicious or fearful of what seems different. A real shift is needed in the EECA region to move from the current situation, to a celebration of difference as something that has value and adds richness to society.</li></ul>

**Entity's engagement with WHO Europe**

NCS have collaborated with WHO Europe since 2016 on organizing an annual workshop on Law and Tobacco control in Europe. The workshop aims to support the legal work in tobacco control by 1) sharing information on legal policy design and tobacco industry opposition, 2) sharing information on legal challenges and 3) facilitating networking and information sharing among countries. The target audience of the workshop is selected European countries and leading NGOs working on legal issues in tobacco control.

In June 2017, NCS launched a campaign aiming to increase awareness among the cancer community and the general population of the importance of AMR to cancer treatment, and to secure support for national government initiatives to curb AMR. WHO Europe was represented in Oslo at World Cancer Day February 2018 which we used to focus on the adverse consequences of AMR to cancer treatment. At the event, NCS opened an exhibition dedicated to AMR and cancer. Following a request from WHO Europe, the artwork "Hanging by a thread" central to the exhibition was donated by NCS to WHO Europe for use at the launch of World Antibiotic Awareness Week 2018. As part of the opening, NCS Sec Gen took part in an Facebook Live event together with AMR Manager Danillo Lo Fo Wong.

A 3-year plan for collaboration has been developed and agreed on jointly by the Norwegian Cancer Society and WHO Europe. Areas of collaboration is listed below.

**Antimicrobial resistance:** NCS will support the Work of WHO Europe, Department of Health Emergencies and Communicable Diseases by:

- Bringing forward WHO advocacy messaging on Antimicrobial Resistance, using the impact on cancer patients as an illustrative case of the adverse effect of Antimicrobial resistance on global health;
- Contribute, as appropriate and in collaboration with WHO Europe, to the impact of the annual World Antibiotic Awareness Weeks through hosting high level events aimed at decision makers, health workers and the general population;
- Financial and practical contribution to bring the artwork "Hanging by a thread" from UN City Copenhagen to other WHO offices, including WHO HQ Geneva.

**Cancer:** NCS will support the Work of WHO Europe, Department of Division of Noncommunicable Diseases and Promoting Health through the Life-course:

- Support the Action Plan for the Prevention and Control of Noncommunicable Diseases in the WHO European Region 2016–2025 with a specific focus on;
- Cancer, including cervical cancer;
- Tobacco control, including continue hosting annual workshop on Law and Tobacco control in Europe / NCDs for selected European countries and NGOs.
