

# RUBELLA

is a contagious disease that can lead to **miscarriage, premature delivery or birth defects.**

## Rubella

**REMAINS A THREAT** in the WHO European Region.

## DID YOU KNOW...

**9 out of 10** women infected with the rubella virus early in pregnancy will pass the virus to their foetuses.

Children born with congenital rubella syndrome may suffer from **hearing, eye and heart defects.**

Rubella vaccines are **safe and effective.** They undergo rigorous testing and have had an excellent safety record over the past **40 years.**

Two doses of rubella vaccines provide nearly **100% protection** against rubella.

## YOU CAN STOP RUBELLA

Protect the next generation by making sure you and your family are fully vaccinated.
